

Desk Lamp

Model No.: CV-2000

Thank you for purchasing the Desk Lamp by Etekcitey®. This high power, eco-friendly lamp enables users to adjust lighting brightness and temperature according to the appropriate application. Whether used to read, study, or relax, this lamp is automatically set to the best lighting conditions for each use without the hassle of eye strain or exhaustion. Charge nearly any device with the included USB charging port. The Desk Lamp also includes a built-in LCD backlight screen to display time, temperature, and the current date. The lamp also conveniently features an alarm and snooze function with simple set up. Remove desk clutter and have both uses in one product, designed with a modern accent. A simpler life starts here.

IMPORTANT: Please read, understand, and comply with all the instructions provided in this manual before using the device. Failure to comply with the instructions given in this manual and/or using the device in ways other than the ones mentioned in this manual may result in serious injury and/or damage the product.

Safety Use & Care

- **DO NOT** attempt to repair, disassemble or modify under any circumstances.
- **DO NOT** place near any heat source or in direct sunlight.
- Place on a flat, secure surface.
- Only use the supplied AC power adapter to operate the lamp.
- **DO NOT** use the lamp if the electrical power cord is frayed or damaged.
- **DO NOT** touch any electrical appliances with wet hands or store near liquid.
- Keep the light and power cord dry and clean at all times.
- **DO NOT** operate this lamp in damp or moist environments.
- Unplug the adapter when the light is not in use for an extended period of time.
- Clean only with a soft dry cloth. Do not use any solvents or cleaning solutions when cleaning the lamp.
- Never overload electrical circuits as it may cause an electrical shock or hazardous fire.

Operation

Lamp Operation

1. Insert the DC plug of the AC/DC adapter into the DC jack of the lamp.
2. Plug the AC/DC adapter into a power outlet and power on the lamp with the 'ON / OFF' operation button.
3. To change the color mode, press the desired mode according to its symbol.
4. To change the brightness, press the brightness control buttons to adjust according to preference.

Alarm Clock Operation

Note: please remove the insulating sheet in battery compartment before using.

Date and Time Set-Up

1. While in Normal Mode, press the 'SET' button to adjust the date and time settings.
2. Press the 'UP' and 'DOWN' buttons to adjust to the appropriate setting then press the 'SET' button to proceed to set the next value. Repeat the previous steps until set-up is complete. The order of set-up is: hour / minute / year /

month / date / exit.

3. When done, the new settings will automatically take place after 1 minute of inactivity or when the 'Set' button is pressed for finalization.

NOTE: While in Normal Mode, the 'UP' button can be pressed to switch between 12 hour and 24 hour clock mode.

Alarm/Snooze Function Settings

1. While in Normal Mode, press 'MODE' to enter Alarm Mode.
2. While in Alarm Mode, press the 'SET' button to adjust the alarm settings.
3. Use the 'UP' and 'DOWN' buttons to adjust settings for each value and press 'SET' to confirm each selection. The order of set-up is: hour / minute / snooze / music / exit.
4. After setting the alarm and while in the alarm time interface, press the 'UP' button once and the alarm icon will appear on the interface, indicating the alarm is activated.
5. Press 'UP' once again and the 'Zz' icon will appear on the display indicating that the snooze function has been activated.
6. Press 'UP' once more to deactivate both the alarm and snooze functions. The corresponding icons will disappear from the display.
7. If the ALARM function is activated, when the time arrives the alarm time, the alarm music will start and will last 1 minute; if SNOOZE function is activated, after SNOOZE time arrives, the music will start again. Press any key (Mode/set/Up/Down) can stop the music.
Note: if you press any key to stop the alarm, the SNOOZE function will also be stopped.

NOTE: While in Normal Mode, press the 'DOWN' button to convert the temperature unit.

Charging Devices

To charge a device via USB, insert any USB charging cable to the lamp USB port, located on the back side of the lamp while the lamp is plugged into a power outlet. Connect the chargeable device to the cord and charging will automatically commence.

Package Contents
